

To edit these cards into your  
own text

## Directions

- The best way to edit our daily routine and chore cards into your own text is by using adobe reader , YOU CAN EDIT THE TEXT of each flashcard to better suit your family individually via adobe acrobat pro software ( if you are not already a subscriber you can download and use their free 1 week free trial and end it, once your finished editing these cards - here is the link [www.adobe.com/au/acrobat/free-trial-download.html](http://www.adobe.com/au/acrobat/free-trial-download.html) ) - if you have any problems or adobe isn't working but you want to still want to edit the TEXT or even images- please send me a message on etsy and I can share you my collaboration link for you to edit using canva instead (this is also a free software) .
