

PATTERN LOOSE

25X PARTS MATS

These Reggio Emilia inspired Pattern Mats are a fun, hands-on activity and makes a fun way to explore patterns for young kids using stones, sticks, playdough, leaves, twigs, buttons, pebbles, shells and any other nature based manipulative or loose parts. Your little ones will learn pre writing patterns such as curves, loops and straight lines. This is a great activity to develop fine motor control, coordination, and concentration. They make the perfect addition for nature based preschools, daycares or morning baskets . Simply print on A4 size paper (laminates for longer/multiple use) cut around round edge border to form your pattern mats.
