directions:
step by step

Nature DIY STICKER pack:

A4 size sticker paper or A4 size label sheets

- simply print each sticker page on a FULL SIZE A4 SIZE STICKER PAPER SHEET , we used A4 SIZE label sheets (these are not glossy but give of the raw look we were going for) these are just from our local post office but you use whichever one you choose :)
- once you print out each page, all you have to do is cut around each image, peel of the sticker back and start decorating!!

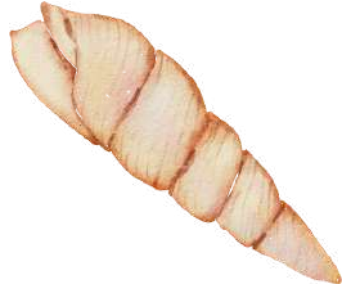

If you dont have sticker paper, you can try this homemade sticker idea using packing tape, on the youtube video link
